PRIMARY RULES OF FILTER PLACEMENT

Filters on **Parasympathetic** energy area **(Neck/Thorax)**

- General Rule: **Removes Micro-information**
(Exception: **Color Filters = Add Micro-information**)

FILTER	EMF	DIAGNOSTIC IMPLICATION
Organ Tissue / Medications	Moves in all the way	= Big relationship
	Moves in part of the way	= Small relationship
	Moves out further	= Needs it
	Stays the same	= No relationship
Anything on Neck	Moves in	= Relationship
	Moves out	= Relationship
	Stays the same	= No relationship
Color (Phase) Filters	Moves in	= No Color / Phase relationship
	Moves out	= Color / Phase Relationship
	Stays the same	= Color / Phase Relationship

Filters on **Sympathetic** energy area **(Arm/Extremity)**

- General Rule: **Adds Micro-information**
(Exception: **Color Filters = Remove Micro-information**)

FILTER	EMF	DIAGNOSTIC IMPLICATION
Organ Tissue	Moves in	= No problem in that organ
	Moves out	= Problem in that organ
	Stays the same	= Problem in that organ
Anything on Arm (Except Organ Tissue) i.e. medications, remedies, foods, drinks, etc.	Moves in	= Good relationship
	Moves out	= not good relationship
	Stays the same	= no relationship possibly
Color (Phase) Filters	Moves in	= Color / Phase relationship
	Moves out	= Possible Color / Phase relationship
	Stays the same	= no Color / Phase relationship

Blockage Filter Indications Hierarchy

Filter on Neck	***Filter on Arm***	***Filter that brought field in*** ***(when placed on neck)***	***Implication***
			2. Epiphysis problem (cont.)
Phos D400	Scar Epiphysis	Liver	d. Vitamin/Mineral Deficiency causing epiphysis problem
Phos D400	Scar Epiphysis	Bones	e. Mineral Deficiency causing epiphysis problem
Phos D400	Scar Epiphysis	Pancreas or Stomach	f. Enzyme Deficiency causing epiphysis problem
Phos D400	Scar Epiphysis	Adrenals or Ovaries or Testes or Thyroid or Other Gland	g. Hormone Deficiency causing epiphysis problem
Phos D400	Scar Epiphysis	Any Other Organ/Tissue Filter	h. Other Deficiency causing epiphysis problem
Phos D400	Scar	Corpus callosum	3. Corpus callosum problem
Phos D400	Scar Corpus callosum	Cerebellum	a. Emotions - Inability to *express* emotions causing Corpus callosum problem
Phos D400	Scar Corpus callosum	Thymus	b. Toxicity causing Corpus callosum problem
Phos D400	Scar Corpus callosum	Liver	c. Liver Drainage problem causing Corpus callosum problem
Phos D400	Scar Corpus callosum	Kidney	d. Kidney Drainage problem causing Corpus callosum problem
Phos D400	Scar Corpus callosum	Lung	e. Lung Drainage problem causing Corpus callosum problem
Phos D400	Scar Corpus callosum	Skin	f. Skin Drainage problem causing Corpus callosum problem
Phos D400	Scar Corpus callosum	Any Other Organ/Tissue Filter	g. Any Other Organ/Tissue Drainage problem causing Corpus callosum problem

Blockage Filter Hierarchy

To Check for:	*Filter on Neck*	*Filter on Arm*	*Filter that brought field in* *(when placed on neck)*
4. Pain (cont.)			
k. Enzyme Deficiency causing epiphysis problem causing pain problem	Phos D400	Scar Morphine Epiphysis	Pancreas or Stomach
l. Hormone Deficiency causing epiphysis problem causing pain problem	Phos D400	Scar Morphine Epiphysis	Adrenals or Ovaries or Testes or Thyroid or Other Gland
m. Corpus callosum causing pain problem	Phos D400	Scar Morphine	Corpus callosum
n. Emotions causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Cerebellum
o. Toxicity problem causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Thymus
p. Liver Drainage problem causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Liver
q. Kidney Drainage problem causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Kidney
r. Lung Drainage problem causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Lung
s. Skin Drainage problem causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Skin
t. Other Organ/Tissue Drainage problem causing corpus callosum problem causing pain problem	Phos D400	Scar Morphine Corpus callosum	Any Other Organ/Tissue
